Ticket Color Guide

How color is used on the kitchen display screen in the restaurant.

KDS orders can use colors to convey order times and dining option behaviors at a glance. Once the features are enabled in Toast Web and colors have been chosen, use this page to announce what each color indicates. Add the colors and their descriptions at the bottom and post this page near your KDS screen(s) for quick reference.

How Color Is Used

Ticket time shown by **header** color.

Dining Option Behavior shown by **border** color.

What Each Color Indicates

Shade in each box with a color or write the color in the box. Then list the description of the color.

Ticket Time	Dining Option Behavior
☐ _____	
☐ _____	☐ On Premise
☐ _____	☐ Off Premise
☐ _____
